"BUT THERE IS A FRIEND WHO STICKS CLOSER THAN A BROTHER." PROVERBS 18:24

GIVE TODAY

DEAR PRO-ISRAEL FRIEND,

You may have seen the speech. In a historic and visionary address to the United Nations – no friendly forum for Israel – Israeli Prime Minister Benjamin Netanyahu laid out the future racing toward us ... **one of great blessing or great curse.**

Netanyahu celebrated the Abraham Accords, Israel's breakthrough peace agreements with four Arab nations. They are already transforming the Middle East. But something even better, he said, is coming ...

"I believe that we are at the cusp of an even more dramatic breakthrough – an historic peace between Israel and Saudi Arabia."

Such a peace, the PM said, "will truly create a new Middle East."

And it could happen.

Nearly 70 years ago, Saudi Arabia's King Saud pledged "to uproot [Israel] just like a cancer."

Today, Saudi Crown Prince Mohammed bin Salman declares, "every day we get closer" to peace with the Jewish state.

And there's more ...

A just-announced plan to build a continent-bridging trade corridor linking India, the Middle East, and Europe promises, Netanyahu added, to "tear down the walls of enmity" that have long divided Israel from its neighbors.

"Israel," he said, "can become a bridge of peace and prosperity between these continents."

NONETHELESS, BIDEN THREATENS TO BLOCK PEACE

But all is not well. Joe Biden will reportedly block peace with Saudi Arabia unless Netanyahu caves to a series of outrageous and impossible White House demands.

Biden's mouthpiece at the *New York Times*, columnist Thomas Friedman, reports Biden told Netanyahu to BREAK UP and dissolve his right-wing government, replacing it with a left-right coalition – which is NOT what Israelis voted for last November.

Biden is also demanding that Netanyahu slam the brakes on new Jewish communities in Judea and Samaria – Israel's biblical heartland and land God gave to His people.

Unprecedented opportunity may lie just ahead for Israel and the world. But Joe Biden threatens to scuttle the bright future ahead.

Blessing or cursing lie just ahead. And that is why you and I, as friends of Israel, MUST be heard. Bible-believing Christians are the most pro-Israel bloc in America. Our voice in support of the Jewish state is critically important – especially now.

Will you make a generous donation today to make our voice heard, to strengthen and expand our pro-Israel work in America and Israel?

The most hostile-to-Israel administration in American history just escalated its war on the Jewish state. You'll be stunned by what the Biden State Department just announced.

GOD'S HEART FOR ISRAEL

One amazing promise coming true before our eyes is this:

I will surely gather them from all the lands where I banish them in my furious anger and great wrath; I will bring them back to this place and let them live in safety. ... I will never stop doing good to them, and I will inspire them to fear me, so that they will never turn away from me. I will rejoice in doing continued>>

them good and will assuredly plant them in this land with all my heart and soul (see Jer. 32:37, 40-41, emphasis added).

But while God has planted His people in their land, **the tyrants of Tehran are spending billions to wipe Israel off the map** — to curse God's people.

Thanks to Joe Biden, the fanatics ruling Iran are almost unchecked. He just signed off on a \$6 billion ransom payment to the world's foremost financiers of global terror!

Biden has also lifted oil sanctions against Iran, sending Iranian oil exports soaring to almost 2 million barrels a day — five times more than in 2020, under Trump's maximum pressure campaign against Iran.

IRAN: SIX NUKES IN ONE MONTH

Enriched by Joe Biden, Iran's military threat is only growing:

- A U.N. ban on Iranian ballistic activities expires this month. That gives Iran, which already has the Middle East's largest arsenal of ballistic missiles, a free path to build more.
- Iran can now produce — in just one month — enough weapons-grade uranium for six nuclear bombs. It could make up to 10 nukes in four months.
- And Biden's weakness is inviting Iranian aggression. Iran-backed terrorists have attacked American forces in the Middle East at least 78 times since January 2021. Iran's criminal regime also plotted to kill Trump administration officials Mike Pompeo and John Bolton.

ISRAEL WILL ACT

But while Biden displays weakness, Israel is acting. After thwarting 27 Iranian terror plots so far this year against Israelis and Jews worldwide, the Mossad chief announced, "it is time to exact a price, in a manner not yet seen." He warned that Israel could strike "from deep inside Iran, in the heart of Tehran."

If and when Israel delivers a punishing blow against Iran to eliminate its nuclear threat, an inferno of war could explode across the Middle East, which is why the U.S. **MUST stand with Israel now.**
